TIMOTHY L. DEFOOR AUDITOR GENERAL

**Independent Auditor's Report** 

The Honorable Yassmin Gramian, P.E. Secretary
Department of Transportation
Harrisburg, PA 17120

We examined the accompanying Form MS-965 With Adjustments for the Liquid Fuels Tax Fund of the Borough of Swarthmore, Delaware County, for the period January 1, 2020 to December 31, 2020. The municipality's management is responsible for presenting the Form MS-965 in accordance with the criteria described in the Background section of this report and the Department of Transportation's *Publication 9*. Our responsibility is to express an opinion on the Form MS-965 With Adjustments based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Form MS-965 is presented in accordance with the criteria described above, in all material respects. An examination involves performing procedures to obtain evidence about the Form MS-965. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material misstatement of the Form MS-965, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

As described in the Auditor Description Of Select Transactions section of this report, the adjustments included on the Form MS-965 With Adjustments are made by the Department of the Auditor General.

### <u>Independent Auditor's Report (Continued)</u>

As discussed in the Findings and Recommendations and Summary of Prior Examination Recommendations sections of this report.

- During 2020 the borough expended \$2,773.25 of Liquid Fuels Tax Fund money in excess of the approved amount for road project No. 19-23424-001 (see Finding No. 1).
- The borough expended \$1,712.00 from the Liquid Fuels Tax Fund for nonpermissible expenditures (see Finding No. 2).
- During the prior examination period, the borough expended \$9,187.75 in excess of the approved amount for road projects. The borough reimbursed this amount to it Liquid Fuels Tax Fund on April 15, 2021, which was subsequent to our examination period (see Summary Of Prior Examination Recommendations).

In our opinion, except for the bulleted matters discussed above, the Form MS-965 With Adjustments presents, in all material respects, the information required by the Pennsylvania Department of Transportation for the Liquid Fuels Tax Fund of the Borough of Swarthmore, Delaware County, for the period January 1, 2020 to December 31, 2020, in accordance with the criteria described in the Background section of this report and the Department of Transportation's *Publication 9*.

In accordance with *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the Form MS-965; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the Form MS-965. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions. We performed our examination to express an opinion on whether the Form MS-965 is presented in accordance with the criteria described above and not for the purpose of expressing an opinion on internal control over reporting on the Form MS-965 or on compliance and other matters; accordingly, we express no such opinions.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Form MS-965 will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

### **Independent Auditor's Report (Continued)**

Our consideration of internal control over reporting on the Form MS-965 was for the limited purpose of expressing an opinion on whether the Form MS-965 is presented in accordance with the criteria described above and would not necessarily identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our engagement we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

As part of obtaining reasonable assurance about whether the Form MS-965 is free from material misstatement, we performed tests of the Borough of Swarthmore, Delaware County's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of amounts on the Form MS-965. However, providing an opinion on compliance with those provisions was not an objective of our engagement, and accordingly, we do not express such an opinion. The results of our tests disclosed the following instances of noncompliance that are required to be reported under *Government Auditing Standards*:

- Liquid Fuels Money Over Expended On Project Recurring.
- Nonpermissible Expenditures.

Timothy L. Detool

The first examination finding contained in this report cites a condition that existed in the operation of the municipality during the previous engagement period and was not corrected during the current examination period. The municipality should strive to comply with the recommendations noted in this report.

The purpose of this report is to determine whether the municipality's Liquid Fuels Tax Fund money is spent in accordance with the laws and regulations identified in the Background section of this report and the Department of Transportation's *Publication 9*. This report is not suitable for any other purpose.

We appreciate the courtesy extended by the Borough of Swarthmore, Delaware County, to us during the course of our examination. If you have any questions, please feel free to contact the Bureau of County Audits at 717-787-1363.

Timothy L. DeFoor Auditor General

### Background

The Liquid Fuels Tax Municipal Allocation Law, Act 655 of 1956, as amended, see also 72 P.S. § 2615.5, et sec., provides municipalities other than counties (i.e., townships, boroughs, cities, towns, home rule, and optional plan governments) with an annual allocation of liquid fuels taxes from the state's Motor License Fund to be used for the maintenance and repair of streets, roads, and bridges for which the municipality is responsible. The allocation of these funds to municipalities is based upon: (1) 50 percent on the municipality's proportion of local road mileage to the total local road mileage in the state; and (2) 50 percent on the proportion of a municipality's population to the total population in the state.

Title 75 Pa.C.S. § 9511 of the Pennsylvania Vehicle Code provides municipalities with annual maintenance payments to be received from the Motor License Fund for functionally local highways that were transferred to a municipality from the Commonwealth of Pennsylvania.

Each municipality must deposit the allocation of Liquid Fuels Tax funds and annual maintenance payments that it receives into a special fund called either the Municipal Liquid Fuels Tax Fund or State Fund. A municipality may not deposit any other monies into this fund except when the municipality does not have enough money in the special fund to meet the payments called for by its current annual budget for road and bridge purposes. In such a case, the municipality may borrow money or transfer money from its General Fund to its Liquid Fuels Tax Fund.

The Department of Transportation has been given the regulatory authority for the administration of these funds. Department of Transportation's *Publication 9* includes the policies and procedures for the administration of Act 655, as amended, and the Liquid Fuels Tax Fund money. However, if there is a difference between *Publication 9* and any legislation, the legislation shall govern.

To qualify for the annual allocation of Liquid Fuels Tax funds, *Publication 9* indicates that each municipality shall:

- 1. Submit annual reports (MS-965, Actual Use Report, MS-965P, Project and Miscellaneous Receipts, and MS-965S, Record of Checks).
- 2. Make deposits and payments or expenditures in compliance with Act 655 of 1956, as amended. Failure to do so may result in not receiving allocations from PennDOT until all discrepancies are resolved. *Publication 9*, Section 2.6, includes information about investing Liquid Fuels Tax monies, using loan or bond proceeds, and types of receipts into the Liquid Fuels Tax Fund.

### Background (Continued)

- 3. Submit the Pennsylvania Department of Community and Economic Development's (DCED) Report of Elected and Appointed Officials by January 31<sup>st</sup> and the Survey of Financial Condition By March 15<sup>th</sup>.
- 4. Ensure resolution of all Contractor Responsibility Program (CRP) holds and blocks imposed by the Department of Revenue and the Department of Labor and Industry.
- 5. Ensure resolution of all reimbursements required as a result of audits performed by the Department of the Auditor General or monitoring reviews performed by the Department of Transportation's Financial Consultants.

#### Criteria

The criteria for the Form MS-965 With Adjustment are described below.

Section 1 of Form MS-965 With Adjustments provides a summary of Liquid Fuels Tax Fund expenditures by category. Categories requiring explanation include:

• Major equipment purchases are purchases of road machinery and road equipment with varying yearly costs in excess of the amounts indicated below:

2017	2018	2019	2020
¢10.700.00	¢10,000,00	¢11 100 00	¢11 200 00
\$10,700.00	\$10,900.00	\$11,100.00	\$11,300.00

• Minor equipment purchases are purchases of road machinery and road equipment with varying yearly costs that are less than or equal to the amounts indicated below:

 2017	2018	2019	2020
\$10,700.00	\$10,900.00	\$11,100.00	\$11,300.00

• Agility projects are exchanges of services with the Department of Transportation.

### Background (Continued)

Section 2 of Form MS-965 With Adjustments provides information on the fund balance. Categories requiring explanation include:

- The state allocation is available from the Department of Transportation in March of each year. The amount the municipality receives is based half on its population and half on its road mileage.
- Municipalities that transferred roads from the Commonwealth of Pennsylvania to the municipality through the Highway Transfer Program receive annual turnback allocations in March of each year from the Department of Transportation. Turnback allocations are based on the mileage of the roads transferred.
- Expenditures include the total transferred from Section 1.

Section 3 of Form MS-965 With Adjustments determines if the municipality expended Liquid Fuels Tax Fund money in excess of the permissible amount for equipment and the balance that the municipality may carry forward for the purchase of equipment to the subsequent year.

Department of Transportation *Publication 9* requires that the amount expended for equipment purchases in a given year not exceed the sum of the equipment balance carried forward from the previous year and 20 percent of the current year's Liquid Fuels Tax Fund allocation and, if applicable, 20 percent of the turnback allocation plus other Department of Transportation approved adjustments.

If the municipality spent in excess of the amount listed on Line 4, the excess must be reimbursed to the Liquid Fuels Tax Fund.

The equipment balance to be carried forward for the subsequent year is the lesser of the amount on Line 6 or the ending fund balance on Line 6 of Section 2, but not less than zero.

### Background (Continued)

### Basis of Presentation

The financial activities of the municipality are accounted for in separate funds. The Liquid Fuels Tax Fund is used to account for state aid revenues from the Pennsylvania Department of Transportation used primarily for building and improving local roads and bridges. The Form MS-965 has been prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation as a result of the Fuels Tax Act 655, dated 1956 and as amended, which does not constitute a complete presentation of the entity's assets, liabilities, expenses, and fund balance. Accordingly, the presentation of Form MS-965 With Adjustments is restricted to the Liquid Fuels Tax Fund, which represents a segment of the entity.

#### Basis Of Accounting

The accompanying Form MS-965 With Adjustments is prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation. Under this method, revenues are recognized when received and expenditures are recorded when paid.

#### General Fixed Assets

General fixed assets are recognized as expenditures at the time of purchase. No depreciation has been provided on the heavy equipment used to maintain and repair roads and bridges.

### BOROUGH OF SWARTHMORE DELAWARE COUNTY LIQUID FUELS TAX FUND 2020 FORM MS-965 – SECTION 1 WITH ADJUSTMENTS

### BOROUGH OF SWARTHMORE DELAWARE COUNTY LIQUID FUELS TAX FUND AUDITOR DESCRIPTION OF SELECT TRANSACTIONS FOR THE PERIOD JANUARY 1, 2020 TO DECEMBER 31, 2020

The following information relates to certain types of transactions for which the Pennsylvania Department of Transportation requested that we provide additional detail.

### Adjustments

### Section 1

Adjustments were made to "Traffic control devices," "Highway construction and rebuilding projects," and "Miscellaneous" because expenditures of \$8,345.75 were misclassified.

### Finding No. 1 - Liquid Fuels Money Over Expended On Project - Recurring

We cited the municipality for Liquid Fuels money over expended on a project during our prior examination period of January 1, 2019 to December 31, 2019. Our current examination disclosed that the municipality expended \$94,003.02 of Liquid Fuels Tax Fund money on construction project No. 19-23424-001. However, the amount of Liquid Fuels Tax Fund money approved by the Department of Transportation to be expended from the Liquid Fuels Tax Fund for this project was \$91,229.77. The difference of \$2,773.25 should have been paid directly from the General Fund.

The Department of Transportation's Regulations do not permit a municipality to expend Liquid Fuels Tax Fund money in excess of the amount approved on Municipal Services Completion Report Forms MS-999.

This condition occurred because the municipality paid an additional \$2,773.25 of engineering expenditures from the Liquid Fuels account for construction project 19-23424-001. This resulted in an over expenditure of the Liquid Fuels Tax Fund for the project.

The failure to comply with the Department of Transportation's Regulations could result in the municipality having to reimburse \$2,773.25 to its Liquid Fuels Tax Fund.

This condition occurred because the borough officials were not aware of the applicable Department of Transportation's regulations.

#### Recommendations

We recommend that the municipality reimburse \$2,773.25 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation.

We again recommend that, in the future, the municipality expend only the approved amount of Liquid Fuels Tax Fund money on road construction projects.

### Management's Response

The Borough Manager stated:

We were unaware that engineering fees for a prior year approved road program could not be paid out of Liquid Fuels Funds.

### Finding No. 1 - Liquid Fuels Money Over Expended On Project - Recurring (Continued)

### **Auditor's Conclusion**

This is a recurring finding. We again strongly recommend that the municipality comply with our recommendations. During our next examination, we will determine if the municipality complied with our recommendations.

### Finding No. 2 - Nonpermissible Expenditures

Our examination disclosed that the municipality expended \$1,712.00 during 2020 from the Liquid Fuels Tax Fund for the following nonpermissible items:

<u>Description</u>	Amount
Master casting agreement/manhole adjustments for resurfacing	\$1,212.00
Clean water 92A annual fee	500.00
Total	\$1,712.00

The Liquid Fuels Tax Municipal Allocation Law, 72 P.S. § 2615.4, provides, in part, that monies herein allocated may be used only for construction, reconstruction, maintenance, and repairs of such public roads or streets, including bridges, culverts and drainage structures, for which they are legally responsible. Also permitted are expenditures involving acquisition, maintenance, repairs and operation of street signs, traffic signs, traffic signal control systems, road equipment, and snow fences.

The Department of Transportation has been statutorily authorized to promulgate regulations concerning the administration of Liquid Fuels Tax Fund money and has determined that certain items, including master casting agreement/manhole adjustments and clean water 92A annual fees, are outside the scope of permissible expenditures.

This condition occurred because the municipality did not comply with the Liquid Fuels Tax Municipal Allocation Law and the Department of Transportation's Regulations regarding permissible expenditures.

The failure to follow the Liquid Fuels Tax Municipal Allocation Law and the Department of Transportation's Regulations as noted above could result in the municipality having to reimburse \$1,712.00 to its Liquid Fuels Tax Fund.

### Finding No. 2 - Nonpermissible Expenditures

#### Recommendations

We recommend that the municipality reimburse \$1,712.00 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation.

We further recommend that, in the future, the municipality complies with the Liquid Fuels Tax Municipal Allocation Law and the Department of Transportation's Regulations regarding permissible expenditures.

### Management's Response

The borough manager stated:

We do not agree that the MS4 permit fee is nonpermissible. Drainage structures for which the borough is legally responsible are allowable, and we cannot operate our drainage structures without an MS4 permit, which costs \$500.00 annually.

#### Auditor's Conclusion

The Department of Transportation has informed us that the permit fee is not permitted to be paid from the Liquid Fuels Tax Fund. During our next examination, we will determine if the municipality complied with our recommendations.

### BOROUGH OF SWARTHMORE DELAWARE COUNTY LIQUID FUELS TAX FUND SUMMARY OF PRIOR EXAMINATION RECOMMENDATIONS FOR THE PERIOD JANUARY 1, 2020 TO DECEMBER 31, 2020

#### Summary Of Prior Examination Recommendations

In our prior report, we recommended that the Department of Transportation review our examination finding to determine if the municipality should reimburse \$9,187.75 to its Liquid Fuels Tax Fund for liquid fuels money over expended on projects.

During our current examination, we reviewed a letter dated April 1, 2021, from the Department of Transportation directing the municipality to reimburse \$9,187.75 to its Liquid Fuels Tax Fund. We noted that the municipality reimbursed this amount to its Liquid Fuels Tax Fund on April 15, 2021, which was subsequent to our examination period.

In our prior report, we also recommended that the municipality:

- Expend only the approved amount of Liquid Fuels Tax Fund money on road construction projects.
- Comply with *The Borough Code* by obtaining price quotations for all purchases between \$11,100.00 and \$20,600.00. The thresholds for obtaining price quotations increased to purchases between \$11,100.00 and \$20,600.00 for 2019, and \$11,300.00 and \$21,000.00 for 2020, and \$11,500.00 and \$21,300.00 for 2021.

During our current examination, we noted that the municipality complied with our second bulleted recommendation. However, the borough did not comply with our first bulleted recommendation (see Finding No. 1).

### BOROUGH OF SWARTHMORE DELAWARE COUNTY LIQUID FUELS TAX FUND SUMMARY OF EXIT CONFERENCE FOR THE PERIOD JANUARY 1, 2020 TO DECEMBER 31, 2020

An exit conference was held December 15, 2021. Those participating were:

### **BOROUGH OF SWARTHMORE**

Ms. Jane C. Billings, Borough Manager/Secretary

### **DEPARTMENT OF THE AUDITOR GENERAL**

Mr. John C. Socket, Auditor

The results of the examination were presented and discussed in their entirety.

This report was initially distributed to:

The Honorable Yassmin Gramian, P.E.

Secretary
Department of Transportation

**Borough of Swarthmore** 

Delaware County 121 Park Avenue Swarthmore, PA 19081

The Honorable Mary Walk

President of Council

Ms. Jane C. Billings
Borough Manager/Secretary
