EUGENE A. DEPASQUALE AUDITOR GENERAL

Independent Auditor's Report

The Honorable Leslie Richards Secretary Department of Transportation Harrisburg, PA 17120

We examined the accompanying Forms MS-965 With Adjustments for the Liquid Fuels Tax Fund of the Township of Upper Leacock, Lancaster County, for the period January 1, 2015 to December 31, 2017. The municipality's management is responsible for presenting the Forms MS-965 in accordance with the criteria set forth in Note 1. Our responsibility is to express an opinion on the Forms MS-965 With Adjustments based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Forms MS-965 are presented in accordance with the criteria described above, in all material respects. An examination involves performing procedures to obtain evidence about the Forms MS-965. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material misstatement of the Forms MS-965, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are mandated by Section 403 of *The Fiscal Code*, 72 P.S. § 403, to audit each municipality's Liquid Fuels Tax Fund to ensure that funds received are expended in accordance with applicable laws and regulations. *Government Auditing Standards* issued by the Comptroller General of the United States include attestation engagements as a separate type of audit. An attestation engagement performed pursuant to *Government Auditing Standards* involves additional standards that exceed the standards provided by the American Institute of Certified Public Accountants. Accordingly, this attestation engagement complies with both *Government Auditing Standards* and Section 403 of *The Fiscal Code*.

As described in Note 4, the adjustments included on the Forms MS-965 With Adjustments are made by the Department of the Auditor General.

Independent Auditor's Report (Continued)

As discussed in the Findings and Recommendations section of this report:

- The township expended \$62,897.64 during 2015, \$203,962.31 during 2016, and \$250,790.47 during 2017 from the Liquid Fuels Tax Fund for expenditures that were made from contracts. However, the bids and the award of the contracts were not documented in the board of supervisors' meeting minutes, which is in noncompliance with *The Second Class Township Code* (see Finding No. 1).
- The township expended \$15,604.00 for the installation of new storm water inlet structures on Hillcrest Avenue without obtaining the approval of the Department of Transportation. Additionally, the township was required to obtain three written or telephonic price quotations for this expenditure. However, documentation for price quotations was not available for examination (see Finding No. 2).
- During 2016 the municipality expended \$58,351.45 for paving in excess of one inch on School Drive without obtaining the approval of the Department of Transportation (see Finding No. 2).

In our opinion, except for the bullet items discussed above, the Forms MS-965 With Adjustments present, in all material respects, the information required by the Pennsylvania Department of Transportation for the Liquid Fuels Tax Fund of the Township of Upper Leacock, Lancaster County, for the period January 1, 2015 to December 31, 2017, in accordance with the criteria set forth in Note 1.

In accordance with *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the Forms MS-965; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the Forms MS-965. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions. We performed our examination to express an opinion on whether the Forms MS-965 are presented in accordance with the criteria described above and not for the purpose of expressing an opinion on the internal control over reporting on the Forms MS-965 or on compliance and other matters; accordingly, we express no such opinions.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Forms MS-965 will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

<u>Independent Auditor's Report (Continued)</u>

Our consideration of internal control over reporting on the Forms MS-965 was for the limited purpose of expressing an opinion on whether the Forms MS-965 are presented in accordance with the criteria described above and would not necessarily identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our engagement we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

As part of obtaining reasonable assurance about whether the Forms MS-965 are free from material misstatement, we performed tests of the Township of Upper Leacock, Lancaster County's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of amounts on the Forms MS-965. However, providing an opinion on compliance with those provisions was not an objective of our engagement, and accordingly, we do not express such an opinion. The results of our tests disclosed the following instances of noncompliance that are required to be reported under *Government Auditing Standards*:

- Bids Awarded Were Not Documented In The Board Of Supervisors' Meeting Minutes
- Failure To Obtain Project Approval/Documentation For Price Quotations Was Not Available For Examination.

The purpose of this report is to determine whether the municipality's Liquid Fuels Tax Fund money is spent in accordance with the laws and regulations identified in the Background section of this report and the Department of Transportation's *Publication 9*. This report is not suitable for any other purpose.

We appreciate the courtesy extended by the Township of Upper Leacock, Lancaster County, to us during the course of our examination. If you have any questions, please feel free to contact Michael B. Kashishian, CPA, CGAP, CFE, Director, Bureau of County Audits, at 717-787-1363.

TOWNSHIP OF UPPER LEACOCK LANCASTER COUNTY LIQUID FUELS TAX FUND BACKGROUND FOR THE PERIOD JANUARY 1, 2015 TO DECEMBER 31, 2017

Background

The Liquid Fuels Tax Municipal Allocation Law, Act 655 of 1956, as amended, (72 P.S. § 2615.5 et sec.), provides municipalities other than counties (townships, boroughs, cities, towns, home rule, and optional plan governments) with an annual allocation of liquid fuels taxes from the state's Motor License Fund to be used for the maintenance and repair of streets, roads, and bridges for which the municipality is responsible. The allocation of these funds to municipalities is based: (1) 50 percent on the municipality's proportion of local road mileage to the total local road mileage in the state, and (2) 50 percent on the proportion of a municipality's population to the total population in the state.

The Vehicle Code, Title 75 P.S. § 9511, provides municipalities with annual maintenance payments to be received from the Motor License Fund for functionally local highways that were transferred to a municipality from the Commonwealth of Pennsylvania.

Each municipality must deposit the allocation of Liquid Fuels Tax funds and annual maintenance payments that it receives into a special fund called either the Municipal Liquid Fuels Tax Fund or State Fund. A municipality may not deposit any other monies into this fund except when the municipality does not have enough money in the special fund to meet the payments called for by its current annual budget for road and bridge purposes. In such a case, the municipality may borrow money or transfer money from its General Fund to its Liquid Fuels Tax Fund.

The Department of Transportation has been given the regulatory authority for the administration of these funds. Department of Transportation's *Publication 9* includes the policies and procedures for the administration of Act 655, as amended, and the Liquid Fuels Tax Fund money. However, if there is a difference between *Publication 9* and any legislation, the legislation shall govern.

To qualify for the annual allocation of Liquid Fuels Tax funds, *Publication 9* indicates that each municipality shall:

- 1. Submit annual reports (MS-965, Actual Use Report, MS-965P, Project and Miscellaneous Receipts, and MS-965S, Record of Checks).
- 2. Make deposits and payments or expenditures in compliance with Act 655 of 1956, as amended. Failure to do so may result in not receiving allocations from PennDOT until all discrepancies are resolved. *Publication 9*, Section 2.6, includes information about investing Liquid Fuels Tax monies, using loan or bond proceeds, and types of receipts into the Liquid Fuels Tax Fund.

TOWNSHIP OF UPPER LEACOCK LANCASTER COUNTY LIQUID FUELS TAX FUND BACKGROUND FOR THE PERIOD JANUARY 1, 2015 TO DECEMBER 31, 2017

Background (Continued)

- 3. Submit the Pennsylvania Department of Community and Economic Development's (DCED) Report of Elected and Appointed Officials by January 31st and the Survey of Financial Condition By March 15th.
- 4. Ensure resolution of all Contractor Responsibility Program (CRP) holds and blocks imposed by the Department of Revenue and the Department of Labor and Industry.
- 5. Ensure resolution of all reimbursements required as a result of audits performed by the Department of the Auditor General or monitoring reviews performed by the Department of Transportation's Financial Consultants.

Notes to Forms MS-965 With Adjustments are an integral part of this report.

1. Criteria

Section 1

This section of Form MS-965 With Adjustments provides a summary of Liquid Fuels Tax Fund expenditures by category. Categories requiring explanation include:

• Major equipment purchases are purchases of road machinery and road equipment with varying yearly costs in excess of the amounts indicated below:

2013	2014	2015/2016	2017
\$10,200.00	\$10,300.00	\$10,500.00	\$10,700.00

 Minor equipment purchases are purchases of road machinery and road equipment with varying yearly costs that are less than or equal to the amounts indicated below:

2013	2014	2015/2016	2017
****	***	+10 -00 00	***
\$10,200.00	\$10,300.00	\$10,500.00	\$10,700.00

• Agility projects are exchanges of services with the Department of Transportation.

Section 2

This section of Form MS-965 With Adjustments provides information on the fund balance. Categories requiring explanation include:

- The state allocation is available from the Department of Transportation in March of each year. The amount the municipality receives is based half on its population and half on its road mileage.
- Municipalities that transferred roads from the Commonwealth of Pennsylvania to
 the municipality through the Highway Transfer Program receive annual turnback
 allocations in March of each year from the Department of Transportation.
 Turnback allocations are based on the mileage of the roads transferred.
- Expenditures include the total transferred from Section 1.

1. <u>Criteria (Continued)</u>

Section 3

This section of Form MS-965 With Adjustments determines if the municipality expended Liquid Fuels Tax Fund money in excess of the permissible amount for equipment and the balance that the municipality may carry forward for the purchase of equipment to the subsequent year.

Department of Transportation *Publication 9* requires that the amount expended for equipment purchases in a given year not exceed the sum of the equipment balance carried forward from the previous year and 20 percent of the current year's Liquid Fuels Tax Fund allocation and, if applicable, 20 percent of the turnback allocation plus other Department of Transportation approved adjustments.

If the municipality spent in excess of the amount listed on Line 4, the excess must be reimbursed to the Liquid Fuels Tax Fund.

The equipment balance to be carried forward for the subsequent year is the lesser of the amount on Line 6 or the ending fund balance on Line 6 of Section 2, but not less than zero.

Basis Of Presentation

The financial activities of the municipality are accounted for in separate funds. The Liquid Fuels Tax Fund is used to account for state aid revenues from the Pennsylvania Department of Transportation used primarily for building and improving local roads and bridges. The Forms MS-965 have been prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation as a result of the Fuels Tax Act 655, dated 1956 and as amended, which does not constitute a complete presentation of the entity's assets, liabilities, expenses, and fund balance. Accordingly, the presentation of Forms MS-965 With Adjustments is restricted to the Liquid Fuels Tax Fund, which represents a segment of the entity.

Basis Of Accounting

The accompanying Forms MS-965 With Adjustments are prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation. Under this method, revenues are recognized when received and expenditures are recorded when paid.

1. <u>Criteria (Continued)</u>

General Fixed Assets

General fixed assets are recognized as expenditures at the time of purchase. No depreciation has been provided on the heavy equipment used to maintain and repair roads and bridges.

2. <u>Deposits</u>

The Second Class Township Code, Title 53 P.S. § 68204, authorizes the township to deposit its funds in the following:

- Deposits in savings accounts or time deposits, other than certificates of deposit or share accounts, of institutions having their principal place of business in the Commonwealth of Pennsylvania and insured by the Federal Deposit Insurance Corporation (FDIC) or other like insurance. For any amount above the insured maximum, the depository shall pledge approved collateral.
- Certificates of deposit purchased from institutions insured by the FDIC or other like
 insurance to the extent that such accounts are so insured. For any amounts in excess
 of the insured maximum, such deposits shall be collateralized by a pledge or
 assignment of assets. Certificates of deposit may not exceed 20 percent of a bank's
 total capital surplus or 20 percent of a savings and loan or savings bank's assets
 minus liabilities.

Deposits consist of receipts and deposits in a financial institution. Pennsylvania statutes require all deposits to be insured and, for any amount above the insured maximum, to be secured with approved collateral as defined.

There were no deposits exposed to custodial credit risk as of December 31, 2017. Custodial credit risk, as defined by GASB No. 40, as amended, includes deposits that are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the municipality's name.

Fund Balance

The fund balance as of December 31, 2017, consists of the following:

Cash \$516,640.64

3. <u>Interest On Investments</u>

Our examination disclosed that the municipality deposited idle liquid fuels tax money in an interest-bearing account which earned \$169.19 during 2015, \$1,793.25 during 2016, and \$4,815.45 during 2017, thus providing additional funds for road maintenance and repairs.

4. Adjustments

2015 - Section 1

Adjustments were made to "Maintenance and repair of roads and bridges" and "Highway construction and rebuilding projects" because expenditures of \$15,604.00 were misclassified.

2016 - Section 1

Adjustments were made to "Maintenance and repair of roads and bridges" and "Highway construction and rebuilding projects" because expenditures of \$58,351.45 were misclassified.

2017 - Section 1

Adjustments were made to "Major equipment purchases" and "Minor equipment purchases" because expenditures of \$4,381.10 were misclassified.

2017 - Section 3

An adjustment of \$(4,381.10) was made to "Major equipment expenditures" to reflect the adjustment made to major equipment purchases in 2017 – Section 1.

<u>Finding No. 1 - Bids Awarded Were Not Documented In Board Of Supervisors' Meeting Minutes</u>

Our examination disclosed that the township expended \$62,897.64 during 2015, \$203,962.31 during 2016, and \$250,790.47 during 2017 from the Liquid Fuels Tax Fund for expenditures that were made from contracts. However, the bids and the award of the contracts were not documented in the board of supervisors' meeting minutes, which is in noncompliance with *The Second Class Township Code*. These expenditures were as follows:

<u>Description</u>	Check Number	Check <u>Date</u>	Amount	Totals
PG64-22 Asphalt Cement				
Placement	315	12/22/15	\$ 62,897.64	\$ 62,897.64
Seal Coat Double Application Paving School Road –	317	08/18/16	\$145,610.86	
Mobilization, Paving, Milling, and Traffic Control	318	11/17/16	58,351.45*	
2016 Total				203,962.31
Project No. 17-36234-001 Double Seal Coat and Traffic	326	09/05/17	\$102,778.26	
Control	329	12/04/17	148,012.21	
2017 Total				250,790.47
Three Year Total				\$517,650.42

^{*}This amount is also included in Finding No. 2.

The Second Class Township Code, Section 3102(e) states, "... The award of contracts shall only be made by public announcement at the meeting at which bids are opened by the board of supervisors, or received from the individual or committee appointed by the board of supervisors to open and read bids, or at a subsequent meeting of the board of supervisors, the time and place of which shall be publicly announced when bids are received. If for any reason one or both of the meetings are not held, the same business may be transacted at a subsequent meeting if at least five days' notice of the meeting is published in the same newspaper as the notice of bids. Bidders shall be notified and other interested parties, upon request, shall be notified of the date, time and location of the opening of bids and may be present when the bids are opened.

<u>Finding No. 1 - Bids Awarded Were Not Documented In Board Of Supervisors' Meeting Minutes (Continued)</u>

The failure to comply with *The Second Class Township Code* could result in the township having to reimburse \$517,650.42 to its Liquid Fuels Tax Fund.

Recommendations

We recommend that the township reimburse \$517,650.42 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation.

We further recommend that, in the future, the Board of Supervisors ensures that bids awarded during public meetings and are documented in the minute book.

Management's Response

The secretary/bookkeeper stated:

I see that yes in fact the bids were not mentioned/documented in the Supervisors' meetings. Our thinking was that in the budget the supervisors approved that.

Auditor's Conclusion

During our next examination we will determine if the municipality complied with our recommendation.

<u>Finding No. 2 - Failure To Obtain Project Approval/Documentation For Price Quotations</u> <u>Was Not Available For Examination</u>

Our examination disclosed that during 2015, the municipality expended \$15,604.00 for the installation of new storm water inlet structures on Hillcrest Avenue without obtaining the approval of the Department of Transportation. Before the installation of new storm water inlet structures is done, the municipality must obtain the approval of the Department of Transportation. However, the municipality did not file an application with the Department of Transportation for the project and also failed to submit specifications for approval. Additionally the township was required to obtain three written or telephonic price quotations for this expenditure. However, documentation for price quotations was not available for examination.

Furthermore, during 2016 the municipality expended \$58,351.45 for paving in excess of one inch on School Drive without obtaining the approval of the Department of Transportation. Before paving of one inch in thickness or greater is done the municipality must obtain the approval of the Department of Transportation. However, the municipality did not file an application with the Department of Transportation for the project and also failed to submit specifications for approval. The expenditure for the paving of School Drive was also included in Finding No. 1.

The Department of Transportation's *Publication 9* contains the policies and procedures for the administration of the Liquid Fuels Tax Fund. *Publication 9*, Chapter Two, Section 2.7.2, states that nonpermissible expenditures include "Construction and reconstruction projects without prior PENNDOT approval."

Additionally, *Publication 9*, Chapter Two, Section 2.8, states, in part:

The following criteria is used to determine when a project is required for work on local roads utilizing Liquid Fuels Tax Funds, when construction, reconstruction and/or resurfacing work exceeds one inch or more in depth as well as other activities.

Bituminous Surface: A depth of one inch or greater

Pipe [Includes Inlets] New installation or replacement with a larger size

<u>Finding No. 2 - Failure To Obtain Project Approval/Documentation For Price Quotations</u> Was Not Available For Examination (Continued)

Additionally, the above expenditure for the installation of new storm water inlet structures was not made in compliance with the contract requirements of *The Second Class Township Code*, 53 P.S. § 68102(b), (also found at § 3102(b) of *The Second Class Township Code* as published by the Local Government Commission), which states, in part:

Written or telephonic price quotations from at least three qualified and responsible contractors shall be requested for all contracts [during 2012] that exceed ten thousand dollars (\$10,000.00) but are less than the amount [in excess of \$18,500.00] requiring advertisement and competitive bidding or, in lieu of price quotations, a memorandum shall be kept on file showing that fewer than three qualified contractors exist in the market area within which it is practicable to obtain quotations. A written record of telephonic price quotations shall be made and shall contain at least the date of the quotation, the name of the contractor and the contractor's representative, the construction, reconstruction, repair, maintenance or work which was the subject of the quotation and the price. Written price quotations, written records of telephonic price quotations and memoranda shall be retained for a period of three years.

The thresholds for obtaining price quotations increased to purchases between \$10,500.00 and \$19,400.00 for 2015 and 2016, \$10,700.00 and \$19,700.00 for 2017, and \$10,900.00 and \$20,100.00 for 2018.

The failure to comply with the Department of Transportation's *Publication 9* and *The Second Class Township Code* could result in the municipality having to reimburse \$73,955.45 to its Liquid Fuels Tax Fund.

Recommendations

If the Department of Transportation does not require reimbursement for Finding No. 1, we recommend that the municipality reimburse \$73,955.45 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation. If the Department of Transportation does require reimbursement for Finding No. 1, we recommend that the municipality reimburse \$15,604.00 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation.

We further recommend that before the municipality expends money on a project, it applies for and obtains prior approval for the project, and when the project is completed it obtains approval of the completed work. Additionally we recommend that, in the future, the township complies with *The Second Class Township Code* and *Publication 9* as noted in this finding.

<u>Finding No. 2 - Failure To Obtain Project Approval/Documentation For Price Quotations</u> Was Not Available For Examination (Continued)

Management's Response

The municipal officials offered no formal response at this time.

Auditor's Conclusion

During our next examination we will determine if the township complied with our recommendations.

TOWNSHIP OF UPPER LEACOCK LANCASTER COUNTY LIQUID FUELS TAX FUND SUMMARY OF EXIT CONFERENCE FOR THE PERIOD JANUARY 1, 2015 TO DECEMBER 31, 2017
