MUNICIPAL PENSION REPORTING PROGRAM (FORMERLY PERC)

March 2021

Members of the Pennsylvania General Assembly and Governor Wolf:

Pursuant to Act 100 of 2016, the Department of the Auditor General took over responsibility for collection and biennial reporting of the commonwealth's municipal pension plans status. I am pleased to submit the Municipal Pension Reporting Program's (formerly the Public Employee Retirement Commission) biennial report on the status of the commonwealth's local government pension plans for your review and information. Similar to prior years, my department will be providing additional analysis of this data in early 2021.

Pennsylvania's pension plans for local government employees in total represent one of the largest retirement systems in the nation. Currently, there are more than 3,300 local government pension plans in Pennsylvania and the number continues to grow. Unfortunately, the struggle to properly fund the plans also continues to grow. Many municipalities face financial hardships as well as the reality of more retired members drawing from pension plans than active members contributing to the plans.

This status report provides a snapshot of the condition of local government pension plans throughout the commonwealth. Reported data shows that 98 percent of the pension plans in Pennsylvania are considered small (fewer than 100 members). This is significant to the overall health of pension plans in Pennsylvania because the reported data shows that small pension plans generally have higher administrative expenses, are more affected by the dramatic increases in municipal contributions, and suffer more acutely from low investment returns caused by often volatile market conditions.

Likewise, data shows that although most pension plans in Pennsylvania are considered not distressed, the largest percentage of active membership is in pension plans that are considered severely distressed. This statistic is sobering when considering how, without significant reform, some municipalities may be forced to reduce services to meet pension obligations.

On behalf of the Department of the Auditor General, I am hopeful that you will find this report to be informative as well as useful to illustrate the issues that require attention in order to protect both taxpayers and retirees.

Sincerely,

A handwritten signature in black ink that reads "Timothy L. DeFoor".

PREFACE

The following report contains data and discussion on the local government pension plans of the Commonwealth. For the purposes of this report, **the local government pension plans established by municipalities subject to the reporting requirements of Act 205 of 1984 are termed “municipal pension plans,” while the local government pension plans established by counties that continue to report under the provisions of Act 293 of 1972 are termed “county pension plans.”** Where data is combined for municipal and county pension plans, the report uses the term “local government pension plans.”

The data presented in the report was extracted from the individual pension plan reports containing actuarial, financial and demographic information. The municipal pension plan reports submitted under Act 205 requirements covered the 2018 plan year, while the county pension plan reports submitted under Act 293 requirements covered the 2017 plan year. Throughout the filing periods, the Municipal Pension Reporting Program (MPRP) endeavored to ensure the reported data was complete and accurate. To the degree possible, the data provided in the individual reports was reviewed for completeness and internal consistency. In extracting the data from the database and in compiling this report, MPRP endeavored to minimize typographical errors and omissions.

Starting with the 2019 filing period, the Act 205 reporting forms are now required to be submitted electronically on the **Department of Community & Economic Development’s Municipal Statistics** website. When this report was prepared for publication, twenty-eight municipalities with one or more municipal pension plans remained delinquent in submitting the required Act 205 reports for the 2019 valuation year. Consequently, data for thirty-one municipal pension plans could not be included in this report. However, the omitted data is not statistically significant due to the small size of the pension plans involved.

PART I

EXECUTIVE SUMMARY

AMENDMENT OF THE ADMINISTRATIVE CODE — ACT 100 OF 2016 AND MUNICIPAL PENSION REPORTING

On July 20, 2016, Act 100 of 2016 was signed into law amending the Administrative Code (P.L. 177, No. 175), to transfer the powers and duties of the Public Employee Retirement Commission (PERC) to both the Independent Fiscal Office and the Department of the Auditor General.

The former commission's **duties relating to municipal pension reporting and analysis** under The Municipal Pension Plan Funding Standard and Recovery Act (Act 205 of 1984) and the Municipal Pension Systems, Regulating Act (Act 293 of 1972) **were transferred to the Department of the Auditor General** which then created the Municipal Pension Reporting Program within its Office of Budget and Financial Management. Effective August 1, 2016, all duties were fully transitioned to the newly created **Municipal Pension Reporting Program (MPRP)**.

ACT 205 AND THE MUNICIPAL PENSION REPORTING PROGRAM (MPRP)

Act 205 provides a uniform actuarial funding standard for funding municipal pension plans in Pennsylvania. The Act 205 funding standard was first effective for municipal pension plans in 1986. Prior to 2016, the Act 205 funding standard was monitored by PERC. Now, MPRP monitors compliance with the actuarial funding standard described in Act 205.

MPRP monitors compliance by collecting and compiling data from local government pension plans pursuant to the reporting requirements set forth by Act 205. Act 205 also requires disclosure of instances of noncompliance. Disclosure must be made in a public status report to the Governor and General Assembly.

This is the third status report under the MPRP. The report contains: an overview of the general characteristics of pension plans in Pennsylvania; the funding practices of municipal pension plans and the funding status of the plans in Pennsylvania; an overview of the recovery methods provided by Act 44 of 2009; and data tabulations that show general municipal pension plan data.

PART II
GENERAL CHARACTERISTICS

NUMBER OF PLANS

Pennsylvania has a complex system of local government comprising more than 4,600 governing units. General purpose local governments — cities, boroughs, towns and townships — total approximately 2,600 governing units. Special purpose local governments — municipal authorities — total approximately 2,000 governing units. Counties total approximately 66 governing units.

In most instances, general purpose local governments establish separate pension plans for their police, fire and nonuniformed employees, while special purpose local governments and counties generally establish one pension plan for all employees.

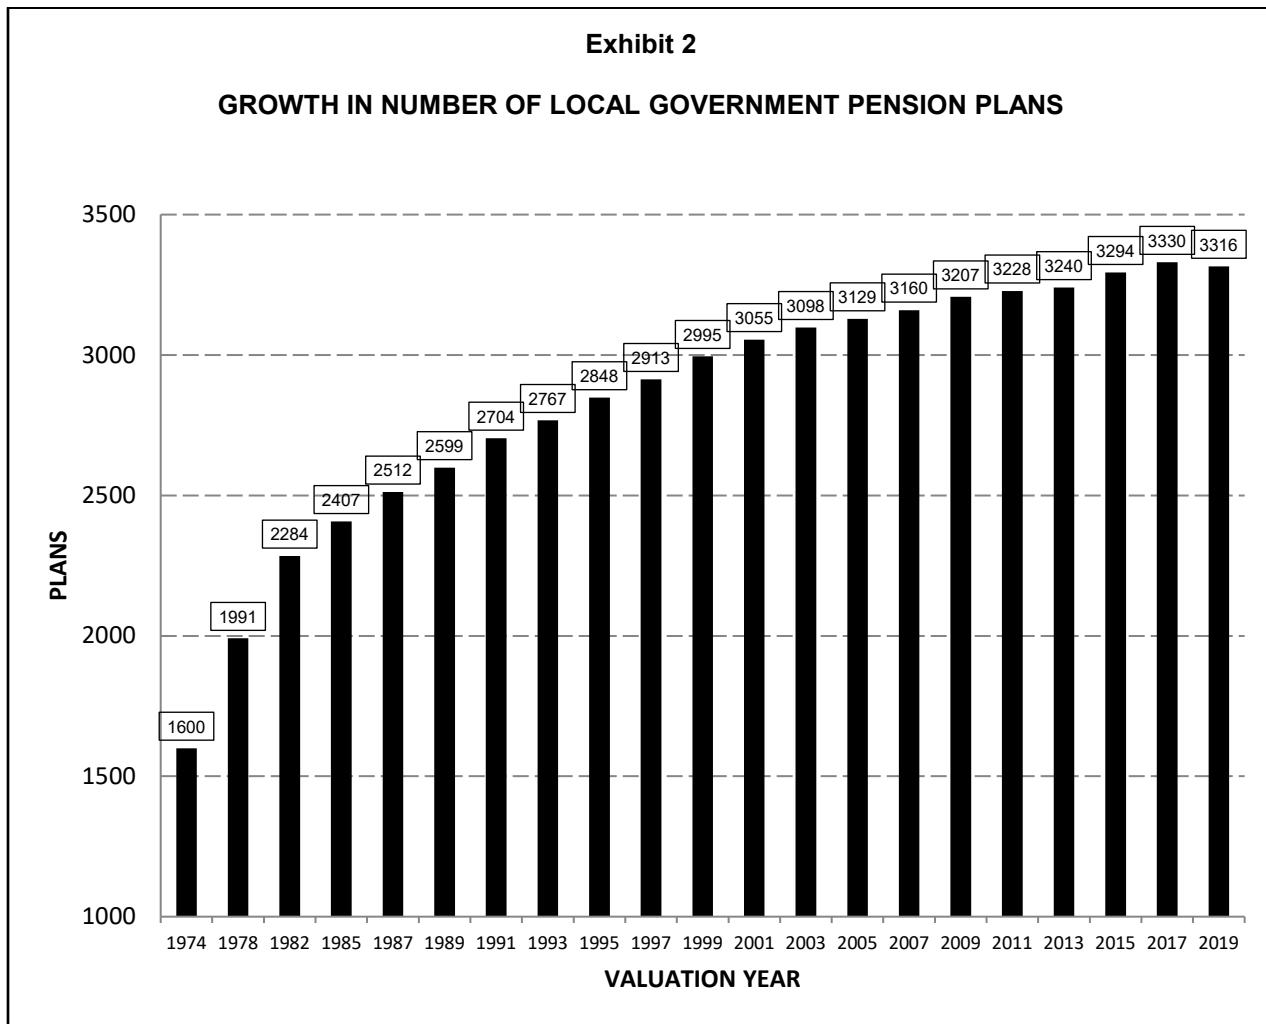

Exhibit 1 shows the number of local government pension plans grouped by the type of employee and by the type of local government as of 2019.

Exhibit 1

NUMBER OF LOCAL GOVERNMENT PENSION PLANS

	Police	Fire	Nonuniformed	Total
County	0	0	71	71
City	59	46	65	170
Borough	460	22	621	1,103
Township (1 st Class)	89	6	124	219
Township (2 nd Class)	296	13	898	1,207
Authority	0	0	483	483
Council of Gov't/Regional	35	3	25	63
Total	939	90	2,287	3,316

Exhibit 2 shows the growth in the number of local government pension plans since reporting requirements were initiated in 1974. Although reporting irregularities, varying reporting criteria, and reporting frequency change affected data, the general trend is clear — the number of local government pension plans in Pennsylvania continues to increase.

As illustrated above in **Exhibit 2**, from 2017 to 2019, the net number of pension plans reported has decreased by 14; however, this decline in reported plans can most likely be attributed to the shift to electronic filing instituted for the 2019 filing period. A larger than normal number of municipalities (including authorities) remain delinquent in their filing(s) as of this publication. If they would have submitted their reporting forms in time, then the net number of pension plans reported would have surpassed the number of plans for 2017. Of the new pension plans reported for 2019, only one (1) has 10 or more members.

NATURE OF PLANS

The municipal pension plans included in this report may be categorized as either **defined benefit** pension plans or **defined contribution** pension plans.

Defined benefit pension plans are pension plans where the amount of an employee's pension benefits are known prior to retirement. The benefits are usually based on factors such as age and salary earned prior to retirement.

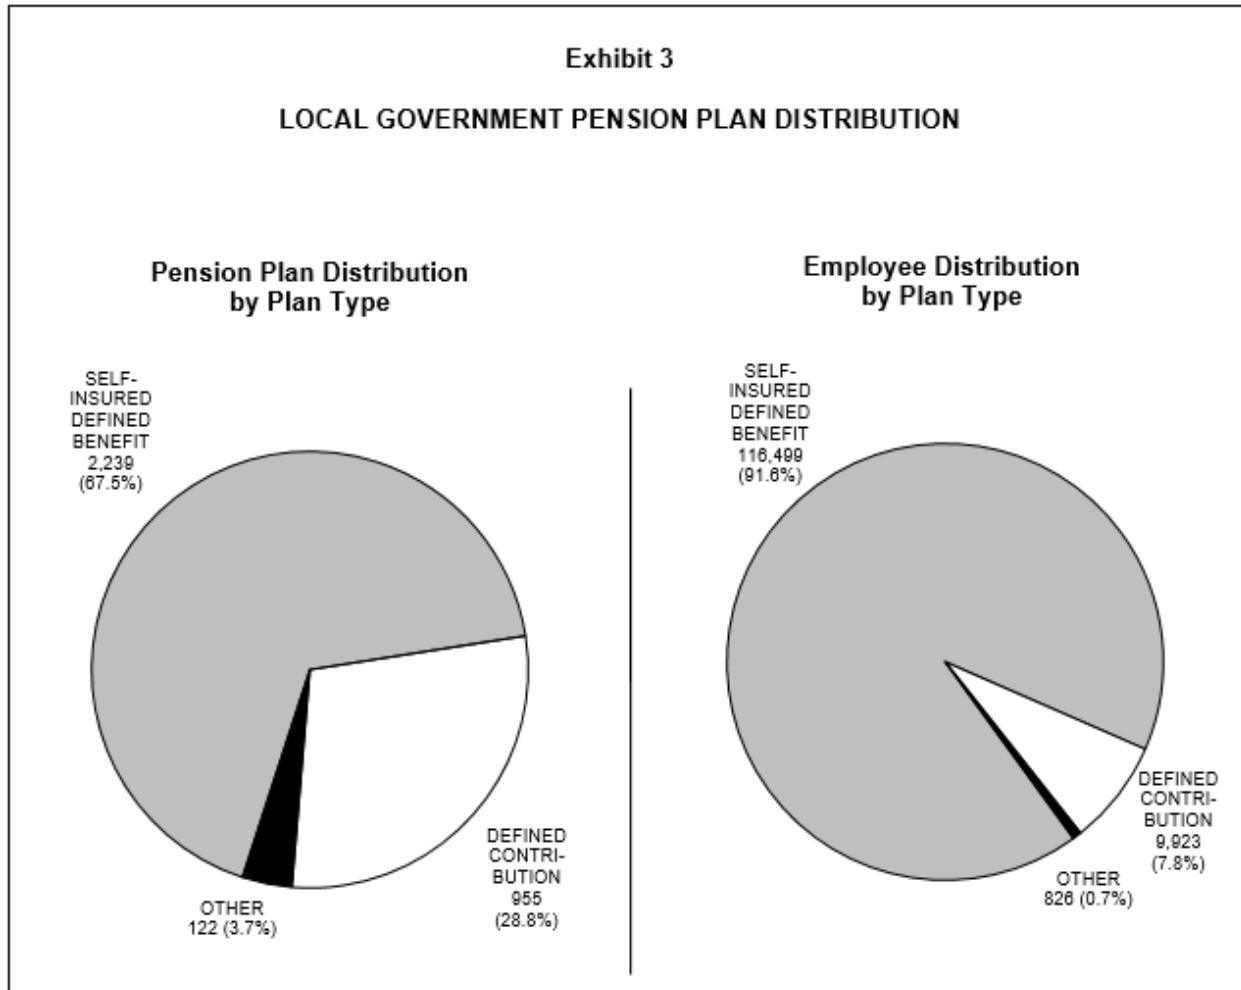

In **defined benefit** pension plans, the pension benefit (to be payable at retirement) is fixed in some manner and a resultant actuarial liability is established and funded. In other words, both the formula used to calculate the benefit amount and the amount of the future benefit are known in advance of retirement. Further, defined benefit pension plans may be characterized as "fully-insured" or "self-insured." In fully-insured pension plans, fund assets are allocated to individual members through insurance instruments prior to retirement and the insurance is sufficient to guarantee the pension benefits at retirement. In self-insured pension plans, some or all of the risk of providing pension benefits remains with the municipality, even though the plan may have an insurance component.

Defined contribution — also known as money purchase pension plans — are pension plans where the amount of an employee's pension benefits are not known prior to retirement because the benefits are based on the investment of the contribution, which fluctuates with market conditions.

In **defined contribution** pension plans the pension benefit is determined by the monies accumulated in the retiring employee's account up to the time of retirement. Each individual employee has a separate account and a certain amount of money is regularly contributed to the plan by both the employer and the employee.

A major distinction between the "defined benefit" and the "defined contribution" approach is most significant in the placement of the risk associated with investment earnings over the period of employment. The employer, as the residual contributor, bears the investment risk in a defined benefit pension plan because they are required to make contributions necessary to pay the defined benefit regardless of market returns. The employee bears the investment risk in a defined contribution pension plan.

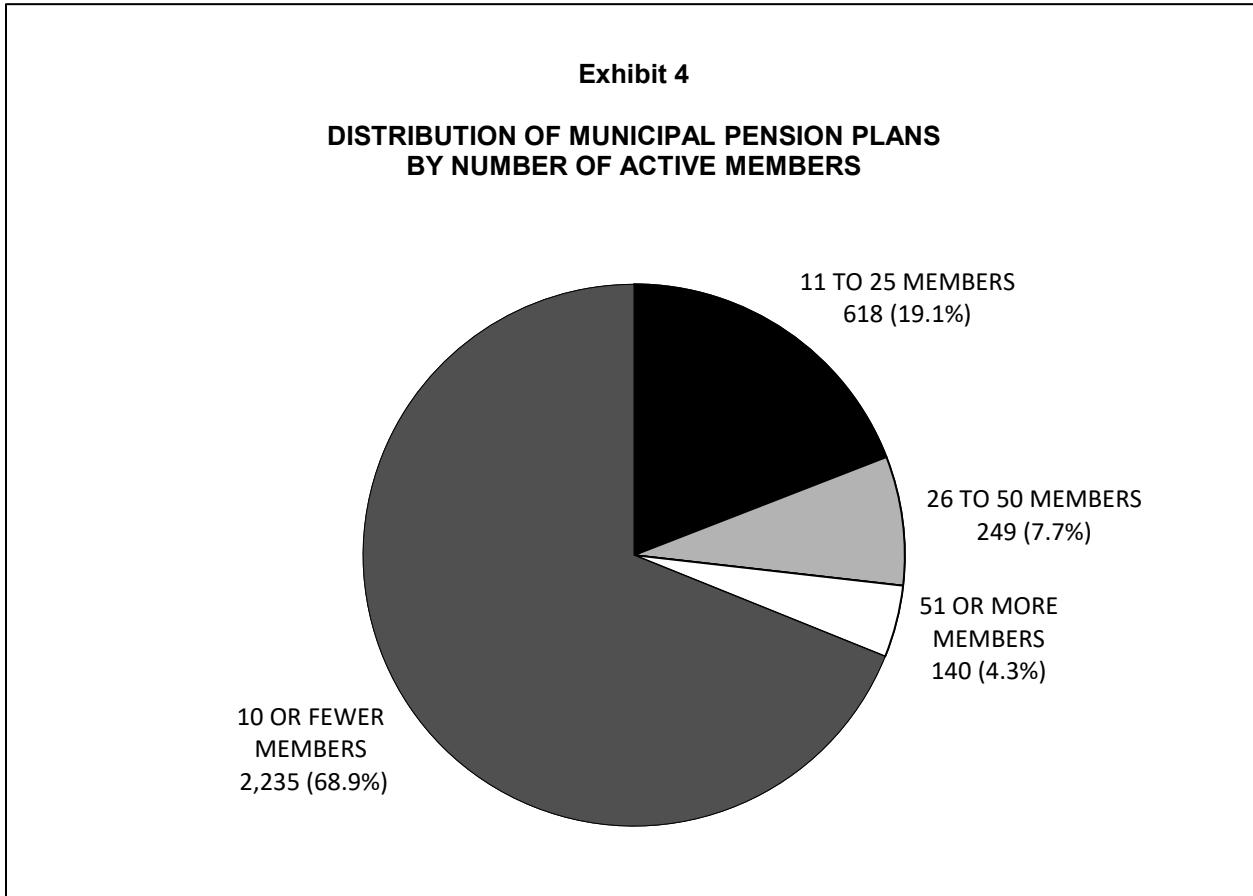

Exhibit 3 shows that the majority (approximately 68 percent) of local government pension plans were self-insured, defined benefit pension plans. An overwhelming majority (approximately 92 percent) of local government employees were members of self-insured, defined benefit pension plans. The graph also shows that defined contribution pension plans represented 29 percent of the local government pension plans, while just 8 percent of the local government employees where in defined contribution pension plans.

SIZE OF PLANS

Excluding Philadelphia, which has a total of 28,596 active members (over 20,000 active members in the nonuniformed pension plan), membership in the municipal pension plans in Pennsylvania ranges in size from one (1) to over 1,700 active members. Surveys of public employee pension plans frequently use a threshold of 100 active members to categorize public employee pension plans as either small or large. Ninety-eight percent (3,183) of Pennsylvania's pension plans are considered small.

Exhibit 4 shows that pension plans with 10 or fewer active members comprise 69 percent of Pennsylvania's municipal pension plans and that only about 12 percent of the municipal pension plans in the Commonwealth have more than 25 active members.

The 71 county pension plans in Pennsylvania range in size from plans with as few as 28 active members to one plan with more than 7,200 active members. Most counties maintain one pension plan, although Allegheny County and Beaver County both have more than one.

Exhibit 6 presents data to permit a comparison of municipal government retirement systems and county government retirement systems. It should be noted that while municipal pension plans vary greatly so there can be significant variance we comparing assets and liabilities to county plans which are generally consistent.

PART III

THE RECOVERY PROGRAM

ACT 44 OVERVIEW

Act 44 of 2009, which makes significant changes to Act 205, was signed into law on September 18, 2009. Acknowledging the economic climate, Act 44 made available a number of actuarial tools intended to provide short-term fiscal relief to local governments operating public pension plans.

Act 44 dictates that every municipality with a pension plan must have a distress score calculated and then must be assigned a corresponding distress level, with mandatory remedies, voluntary remedies or no remedies.

ACT 44 DISTRESS SCORE

The Act 44 distress score is based upon the aggregate funded ratio of a municipality's pension plan(s), as reported in the municipality's Act 205 Actuarial Valuation Report(s). The funded ratio is determined by dividing the total actuarial assets of the pension plans by the total actuarial liabilities, and stated as a percentage. If a municipality operates both defined benefit and defined contribution pension plans, all pension plans (including defined contribution plans) are used in the calculation of the total assets and liabilities. The corresponding score and distress level of the funded ratio are shown in **Exhibit 7**. Distress scores only apply to defined benefit plans.

Exhibit 7

DISTRESS SCORING

Funded Ratio	Score	Distress Level	Election Form
90% and above	0	None	No election form, unless (read below)
70% to 89%	1	Level 1 (Minimal)	Voluntary Remedies
50% to 69%	2	Level 2 (Moderate)	Mandatory and Voluntary Remedies
Less than 50%	3	Level 3 (Severe)	Mandatory and Voluntary Remedies

Municipalities with a funded ratio of 90% or above will have a distress score of zero (0), with no mandatory or voluntary remedies. A municipality with a score of zero will receive a form from MPRP to opt out of any remedies elected while it was at a higher distress level.

Municipalities with distress scores of one (1) have voluntary remedies only whereas municipalities with distress scores of two (2) or three (3) have both voluntary and mandatory remedies. Outlined below are the remedies for each distress level. Voluntary remedies are elected by submitting an election form to MPRP. If no election form is submitted, MPRP assumes no new voluntary remedies have been elected, but the mandated remedies must be implemented.

Level 1 (Minimal Distress)

Voluntary Remedies –

- Aggregation of pension funds for administration and investment
- Establishment of total member contributions
- Deviation from municipal contribution limitations
- May pay 75% or more of the amortization requirement for 2 years
- Increase in the asset smoothing corridor from 20% to 30% for an additional 2 years
(expired on 12/31/2012, whether elected or not elected)

Level 2 (Moderate Distress)

Voluntary Remedies –

- Establishment of total member contributions
- Deviation from municipal contribution limitations
- Utilization of the special taxing authority under Act 205
- Establishment of a revised benefit plan for newly hired employees
- May pay 75% or more of the amortization requirement for 4 years
- Increase in the asset smoothing corridor from 20% to 30% for an additional 4 years
(expired on 12/31/2014, whether elected or not elected)

Mandatory Remedies –

- Aggregation of pension funds for administration and investment
- Submission of a plan for administrative improvement

Level 3 (Severe Distress)

Voluntary Remedies –

- Establishment of total member contributions
- Deviation from municipal contribution limitations
- Utilization of the special taxing authority under Act 205
- May pay 75% or more of the amortization requirement for 6 years
- Increase in the asset smoothing corridor from 20% to 30% for an additional 4 years
(expired on 12/31/2014, whether elected or not elected)

Mandatory Remedies –

- Aggregation of pension funds for administration and investment
- Establishment of a revised benefit plan for newly hired employees
- Submission of a plan for administrative improvement

CURRENT AND PREVIOUS ACT 44 DISTRESS SCORE COMPARISON

The mandates of Act 44 now require MPRP to calculate distress scores for each biennial filing period. If a municipality's score improves, it may continue to utilize the longer time frames for amortization reduction. If a municipality's distress level deteriorates, the municipality may extend the amortization reduction by the difference between the time period allowed for the previous distress level and the current distress level. All other remedies elected and implemented may be continued.

The following charts break down the current and the previous distress scores by level and by municipal class. As shown in **Exhibit 8**, the number of municipalities in the **minimal** and **moderate distressed** levels **increased** while the number of municipalities in the **not distressed** and **severely distressed** levels **decreased**. Inclusion of Philadelphia within the severely distressed category skews the overall percentages. The distress score of each individual municipality is available on MPRP's website at www.paauditor.gov/mprp-reports.

	6	7	13				264	29,377	28,723			

As shown in **Exhibit 12**, 6 municipalities (0.4%) and 264 active members (0.4%) are considered severely distressed. Reported data indicates that the majority of these severely distressed plans are those that are less than 10 years old and have given past service credits to the participating employees. Giving past service credits creates a large liability that must be paid off over the remaining working life of the employee (averaging less than fifteen years). A shorter working life increases the amortization payment, thus increasing the municipality's MMO.

PART IV

DATA TABULATIONS

The following tables show general municipal pension plan data as of:

- January 1, 2019 actuarial valuation reports for municipalities, and
- January 1, 2018 actuarial valuation report for counties.

The columns labeled “PLAN TYPE” indicate the type of employee covered by the pension plan. The plan column uses “P” for police officers, “F” for firefighters, and “N” for nonuniformed employees.

In instances where more than one pension plan is maintained for an employee type, a numeric code is appended to the letter code for employee type to identify the individual pension plan. To indicate the type of benefit plan, the type column uses a letter code (A, B or C). The letter code “A” indicates a defined contribution pension plan or a pension plan without a defined benefit structure or defined contributions. This would include Taft-Hartley Act collectively bargained, jointly trustee, multi-employer pension plans governed primarily by the federal Employee Retirement Income Security Act of 1974 (ERISA). The letter code “B” indicates a defined benefit pension plan that is fully-insured. The letter “C” indicates a defined benefit pension plan that is self-insured in whole or in part.

An asterisk in a data column indicates a value that cannot be calculated or data that is not applicable.
